

DESCALER PLUS

NATURAL* DESCALING DETERGENT

- Effectiveness tested against market leader in a ISO 17025 certified laboratory.
- Produced with raw materials from natural origin, fully biodegradable*
- Ideal also for dishwasher descaling

Descaling detergent with natural origin organic acids (citric acid and lactic acid). Recommended for the removal of limestone residues from polished surfaces, taps, stoneware, ceramics and for dish-washing machine descaling. It contains natural origin raw materials (e.g. surfactants, acids) coming from the processing of glucose, corn and potatoes. Phosphate and nickel-free (less than 0.01 ppm). Colourless and fragrance-free.

HOW TO USE

Manual usage and/or scrubbing machine. For daily maintenance, dilute by 3%. For extraordinary anti-limestone action, deep cleaning and washing machine descaling, use DESCALER PLUS without dilution. Spread the solution on the surface, leave it to act and rinse in case of residues. In case of persistent dirt, evaluate higher dilution ratios.

DILUTION

3% (300 ml in 10 L of water) - pure if required.

The recommended dilution allows to save money and minimise environmental impact. A smaller quantity is enough in comparison to a diluted product.
