

LUXURY HYGIENE SOLUTIONS

TOILET PAPER
BOX

Premium
COMPACT TOILET PAPER

The cardboard box

The box is designed to prevent damage to the packaging during storage and shipping, protecting the contents and facilitating the easy use of the product itself. The packaging and contents are always perfectly presented to the end user.

The dimensions and weight of the package have been specifically designed to:

- Allow any operator - from the employee in the warehouse to the cleaner - to handle the products comfortably.
- Maximise the efficiency of the pallet configuration, to optimise shipments, significantly reducing the economic and environmental impact, reducing CO2 emissions.

Easy opening

The "easy open&close" box design allows you to close the package each time after use - guaranteeing effective protection of the contents from external contamination, ensuring a higher level of hygiene.

The roll

The compact toilet paper rolls each have twice the capacity in use of other standard rolls and thanks to the new "WAVE" embossing give a softer more luxurious touch compared to the standard embossing of similar products on the market. They offer maximum quality in use.

COMPLETELY PLASTIC-FREE PACKAGING

MORE HYGIENIC THANKS TO "OPEN&CLOSE"
