## ABOUT US

Before being a company, we are first and foremost a family. A family that has pursued life and business with inspiration and enthusiasm for five generations, dedicating itself to the good of all those who are part of it. Today, and especially tomorrow.

Since 1873, we have earnestly and skilfully engaged in an ancient art, innovating it constantly. We offer high quality tissue products, employing the very latest technological innovations while respecting the environment and the community. We are one of the leading European manufacturers and processors of tissue paper and our comprehensive process allows us to create semi-finished products in-house and transform them into a wide range of finished products made in Italy - toilet paper, hand towels, kitchen towels, tissues, napkins - destined for both the professional and consumer markets in over 50 countries all over the world.

Who we are and what we do are founded on our passion. We come from a privileged background, nourished by its art, beauty and craftsmanship, which we have incorporated into our entrepreneurial identity to become one of Europe's leading paper manufacturers and processors. We focus on the present while looking to the future, with the strength and responsibility borne of a special past, to honour our unique heritage and to continue to represent excellence Made in Italy.

## THE GROUP

**850**

Employees

**7**

Manufacturing hubs

**10**

Paper Machines

**60**

latest generation Converting lines

**300.000**

tons/year tissue product of production capacity

## THE INDUSTRIAL STRUCTURE

During the last ten years the structural dimensions of Cartiere Carrara has been characterized by a constant evolution, supported by the ownership's continuous investments aimed at strengthening its commercial, administrative and manufacturing organization.

**FERRANIA** (Savona)

Mother reels and de-inked production site.

**PIETRABUONA** (Pistoia)

Mother reels production site.

**CAPANNORI** (Lucca)

Mother reels production and converting site.

**PRATOVECCHIO** (Arezzo)

Mother reels production and converting site.

**CASTEL DEL PIANO** (Grosseto)

Converting site.

**ARPINO** (Frosinone)

Converting site.

**SERMONETA** (Latina)

Mother reels production and converting site.

## SUSTAINABILITY

For us, sustainability does not mean returning to the past. It means building a better future – a future that starts now. It is therefore one of our core values. We are determined to make a tangible contribution to protecting the environment, transiting towards a circular economy, and ensuring sustainable economic growth and social wellbeing.

To do so, we have adopted the goals of the UN's Agenda 2030 for sustainable development and of the European Union's Green Deal.

For us, however, sustainability is also a question of strategy. We are convinced that our commitment to the environment and the community, and our decision to use resources more efficiently and to develop socially and environmentally responsible business models are strategically essential to our company's productivity, competitiveness, and success.

Acting on a principle of equity, we strive to ensure that future generations will be able to enjoy the same economic, human, social and natural capital that our generation has enjoyed. With this in mind, we work for our people, our community, and the environment, and measure our success against the strictest international standards and voluntary certifications. We invest in the safest production systems and in thorough training in accident prevention, and make sure that safety precautions are properly followed in every department. We use certified raw materials and cellulose that respects the life cycle of the forests from which it is sourced. We also support various reforestation projects. Finally, we make every effort to reduce our consumption of energy and water, and to minimise greenhouse gas emissions.

## PAPER THAT PLANTS TREES

We join tradition and innovation, thanks to a family-type management that sees sustainability as a value and a strategy for the growth of the company and our products.

In 2020, in association with Rete Clima, Compagnia delle Foreste and PEFC Italia, we launched two forestation projects aimed at the naturalisation of areas in direct contact with the plants or, in any case, close to our production centres:

- **KILOMETROVERDE LUCCA**
- **POLYCYCLIC PLANTATIONS – ITALIAN FORESTATION**

We directly coordinate and bear the full cost of these projects carried out on lands which have been patiently acquired by the Group over the years precisely for this purpose and now owned by us.

These initiatives come from afar and are deeply rooted in the sensitivity of the Carrara family and the company to environmental sustainability. In 2019, we began to invest important economic resources in these interventions that aim at improving the land affected by our production activities, renaturalising heavily anthropised areas and encouraging the cultivation of short chain raw materials for the paper industry, with a view to Corporate Social Responsibility.

## OUR COMMITMENTS

**FORTE**  
HAVANA

Products made with raw material deriving from the recycling of cardboard, which gives it the characteristic light havana color. The range is designed to meet the needs of image and cost in use in environments sensitive to the theme of material reuse.
